Career Objective

Aspiring web developer with 1.5 years of hands-on experience in creating dynamic and user-friendly web applications. Proven track record of delivering high-quality solutions during my tenure at **Ingenious Solutions** and **Bangladesh Associate of IT Solutions**. Seeking to leverage my technical expertise and problem-solving skills to contribute to innovative web development projects and further enhance my career in a progressive and growth-oriented organization.

Key Skills

- JavaScript, ES6, React, Next JS, Next Auth, Firebase, Tailwind CSS
- Node JS, Express JS, PHP, Laravel, TypeScript
- MongoDB, Mongoose, MySQL, PostgreSQL

Professional Experiences

Bangladesh Associate of IT Solutions (BAITS) | *Junior Software Developer*   **November 2023 - Present**

- **Accounting Management Software**: An innovative solution designed to streamline the financial operations of institutions.

- **Education Management Software:** NEDUBD develops a range of software solutions tailored for educational institutions, including School management, Teacher and student management and details, Exam Results and Student Exam Reports and General Accounts and Fees Collection and so on. As a team leader of NEDUBD projects I had to lead a team that enhanced my professionalism and lead me to learn challenges and difficulties.

- **Web Development:** I've developed plenty of websites for Schools and Madrasa's for BAITS using Laravel, React, NEXT etc.

Ingenious Solutions (Swachh Akshar) | *MERN Stack Web Developer*   **February 2023 – October 2023**

- **Swachh Akshar** is platform where everyone can learn the skill to play with words with minimum effort yet make an impactful change with simpler words of vocabulary.
- **Developed** video playlist and responsive website with Dynamic content.
- It's a learning management system web Application and I was the only developer at **Swachh Akshar**.
